

Project Design Phase

Proposed Solution Template

Date: 19 February 2026

Team ID: LTVIP2026TMIDS72781

Project Name: Flight Booking App (MERN Stack)

Maximum Marks: 2 Marks

S.No.	Parameter	Description
1	Problem Statement (Problem to be solved)	Users face difficulty in searching, comparing, and booking flights due to multiple websites and apps.
2	Idea / Solution Description	Develop a MERN stack based Flight Booking Web Application that enables users to search, compare, and book flights easily.
3	Novelty / Uniqueness	Provides a simple UI with transparent pricing, secure JWT authentication, and real-time flight status updates.
4	Social Impact / Customer Satisfaction	Improves travel convenience, saves time, reduces dependency on travel agents, and offers personalized recommendations.
5	Business Model (Revenue Model)	Commission-based revenue from airline bookings, service charges per booking, and optional premium membership fees.
6	Scalability of the Solution	Cloud deployment enables horizontal scaling. Microservice-ready backend for future feature integration.
