

Customer Journey Map

Flight Booking App (MERN Stack)

ENTICE (Awareness Stage)

- Step: User discovers the flight booking platform while planning travel.
- Interactions: Website homepage, Google search, Social media ads.
- Goal: Help me find affordable flights easily.
- Positive: Attractive offers and clean UI.
- Negative: Too many ads on other sites.
- Opportunity: Personalized landing page and trending destinations.

ENTER (Search Stage)

- Step: User enters source, destination, date, and passengers.
- Interactions: Search form, filters, calendar date picker.
- Goal: Help me see available flights for my dates.
- Positive: Fast results and useful filters.
- Negative: Confusing filters or slow loading.
- Opportunity: Auto-suggest locations and simplified filters.

ENGAGE (Booking Stage)

- Step: User selects flight and proceeds to booking.
- Interactions: Flight details page, passenger form, payment gateway.
- Goal: Help me complete booking securely.
- Positive: Clear pricing and easy form.
- Negative: Fear of payment failure or hidden charges.
- Opportunity: Transparent pricing and multiple payment options.

EXIT (Confirmation Stage)

- Step: Booking confirmed and email notification sent.
- Interactions: Confirmation page and email.
- Goal: Help me feel confident my ticket is booked.
- Positive: Instant confirmation and downloadable ticket.
- Negative: Lack of clear cancellation information.
- Opportunity: Clear refund policy and SMS confirmation.

EXTEND (Post-Booking Stage)

- Step: User manages bookings or plans next trip.
- Interactions: Dashboard, booking history, reminder emails.
- Goal: Help me manage my travel easily.
- Positive: Easy access to booking history.
- Negative: No personalized recommendations.
- Opportunity: Suggest hotels, return flights, and loyalty rewards.
