

# Project Design Phase-II

## Solution Requirements (Functional & Non-Functional)

Date: 19 February 2026

Team ID: LTVIP2026TMIDS72781

Project Name: Flight Booking App (MERN Stack)

Maximum Marks: 4 Marks

### ***Functional Requirements***

| FR No | Functional Requirement (Epic) | Sub Requirement (Story / Sub-Task)                |
|-------|-------------------------------|---------------------------------------------------|
| FR-1  | User Registration             | Form Registration, Gmail Registration             |
| FR-2  | User Confirmation             | Email Confirmation, OTP Verification              |
| FR-3  | User Login                    | Email & Password Login, JWT Authentication        |
| FR-4  | Flight Search                 | Search by Source, Destination, Date, Price Filter |
| FR-5  | Flight Booking                | Enter Passenger Details, Confirm Booking          |
| FR-6  | Payment Processing            | Secure Payment & Confirmation                     |
| FR-7  | Admin Management              | Add/Edit/Delete Flights                           |

### ***Non-Functional Requirements***

| NFR No | Non-Functional Requirement | Description                            |
|--------|----------------------------|----------------------------------------|
| NFR-1  | Usability                  | Responsive & user-friendly interface   |
| NFR-2  | Security                   | JWT Authentication & bcrypt encryption |
| NFR-3  | Reliability                | Accurate booking & payment processing  |
| NFR-4  | Performance                | Fast response time (<3 seconds)        |
| NFR-5  | Availability               | 24/7 cloud availability                |
| NFR-6  | Scalability                | Cloud-ready scalable architecture      |
